

Figure 1: A line graph showing the price of a specialized product (A) over time. The y-axis represents price, with labels 29,200 and 33,700. The x-axis represents time, with labels '次' (times) and '26-18M'. A blue line starts at 29,200, rises to 33,700, and then falls back to 29,200. A green line starts at 29,200, rises to 33,700, and then falls back to 29,200. The area between the blue and green lines is shaded green. The text '物轉專' (Specialized Product Transfer) is written vertically next to the blue line.
