● 虎形山因山勢如虎盤踞而得名，日治時期以漆木為產業，近年與社區攜手打造，占地約八公頃兼具生態休閒與運動的近郊遊憩區。

HuXingShan (Tiger Shaped Mountain) looks like a crouching tiger from afar. During Japanese colonial period, Japanese wax trees were widely planted over this place. In recent years, the local community and government have together built this 8-hectare suburban park as a recreational attraction for eco-tour and exercise.

● 園區多為自然林，有多種昆蟲食草，動植物生態豐富，季節交替各有不同景觀，是生態攝影與教學的極佳場域。The floras of HuXingShan are quite pristine. Plants here are mostly for insect herbivores, and wild animals can often be spotted. Seasonal scenic views are various. All the above make it a superb place for ecological photography and teaching.

● 園區內的望龍吊橋全長百餘公尺，俯瞰橋下溪流與兩旁峭壁景緻美不勝收。環山步道依山勢起伏，全長約1.5公里，高低落差不過三十餘公尺，是運動、遊憩健行的好所在。Inside the park, Wang Long Suspension Bridge is over 100 meters long. Standing on the bridge, one can overlook the stream below and enjoy the views from both hillsides. The 1.5 kilometer route, difference of elevation is less than 30 meters, is best for hiking.
